Through the Years . . .

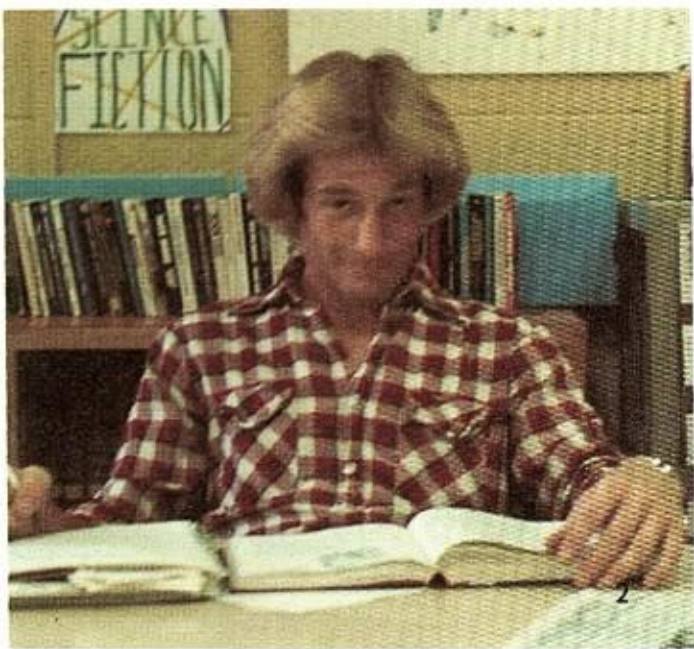

Hey, don't I know you? Familiar faces and grade school friends are remembered even though known long ago. Their appearance has changed somewhat but the personality traits still remain intact.

Remember back to 1st grade when there was a special little boy or girl you eyed across the playground? Now the playground has become the parking lot, which is not only filled with cars, but with many people who have individual looks and personalities.

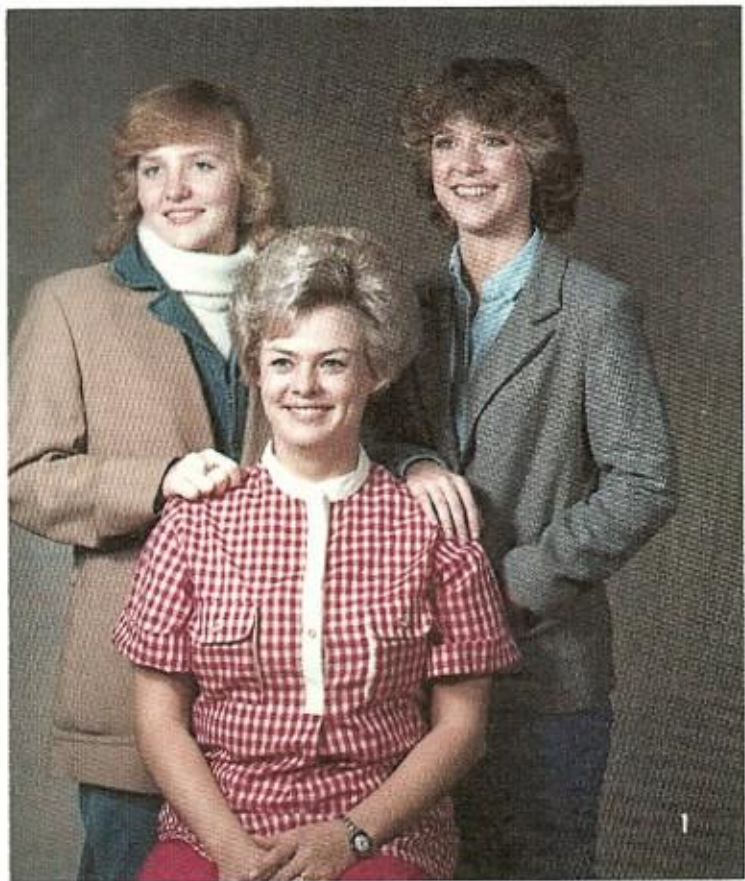

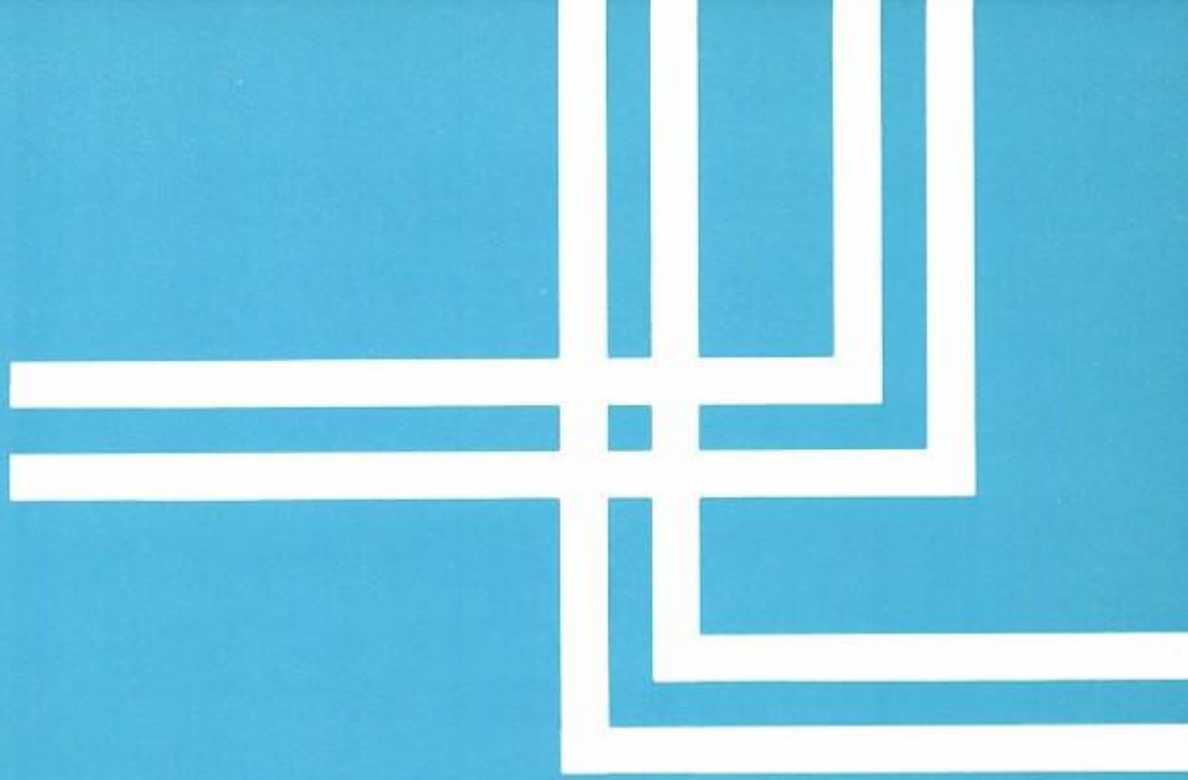

To this day, some of those individuals who became the best of friends years ago have remained that way.

Dear Students,

Modern society has no promise for youth who lack the tools of a basic education. Colleges and Universities will not accept them and the working world will not employ them. Uneducated and untrained youth are thrust into the masses of the unwanted.

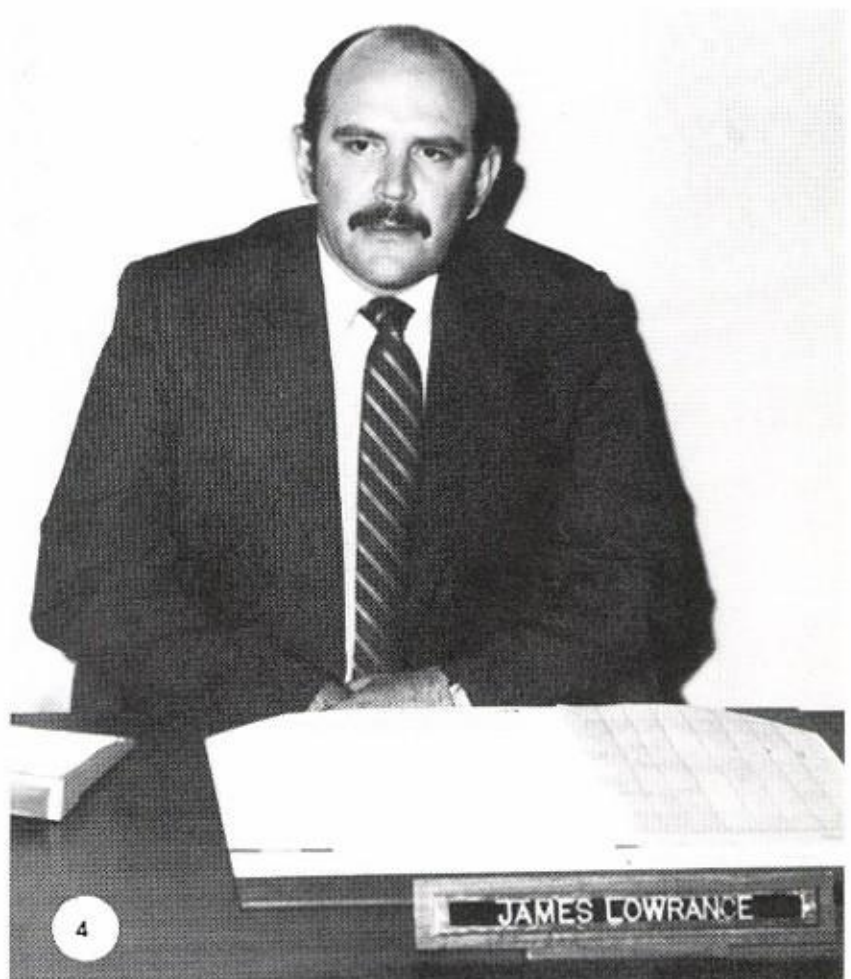

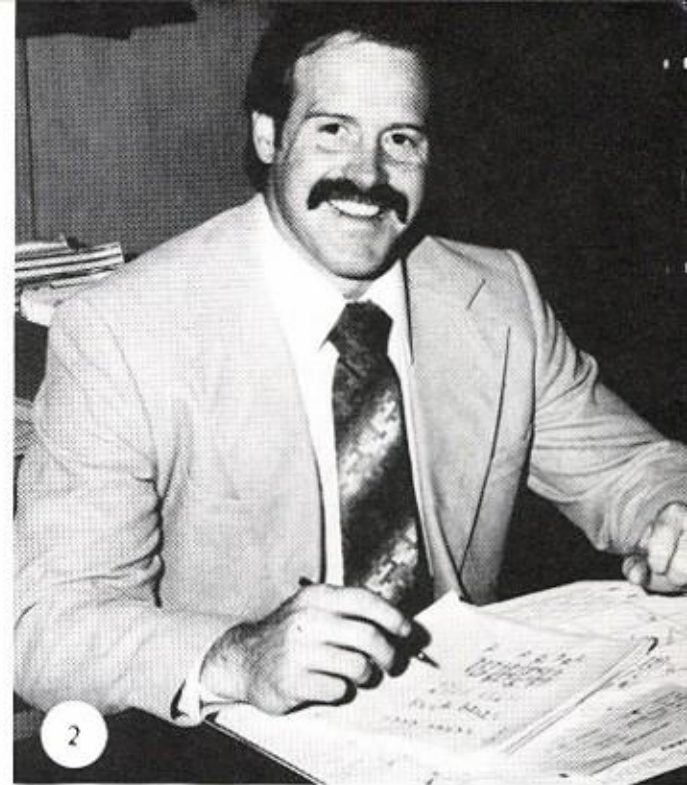

From these ranks come the unemployed relief recipients; the liabilities to society; the non-productive rolls.

On the other hand, never has there been greater opportunities for those who take advantage of educational opportunities in the formative years. The future belongs to the boy and girl who grasp the opportunities of the present and add new dimensions to his personality, who adjusts to a changing environment and whose life is directed by a valid set of human values.

Are you willing to accept the rigorous self-discipline and work which are ingredients in perfectibility?

THE DECA CREED

I believe in the future which I am planning for myself in the field of distribution and in opportunities which my vocation offers.

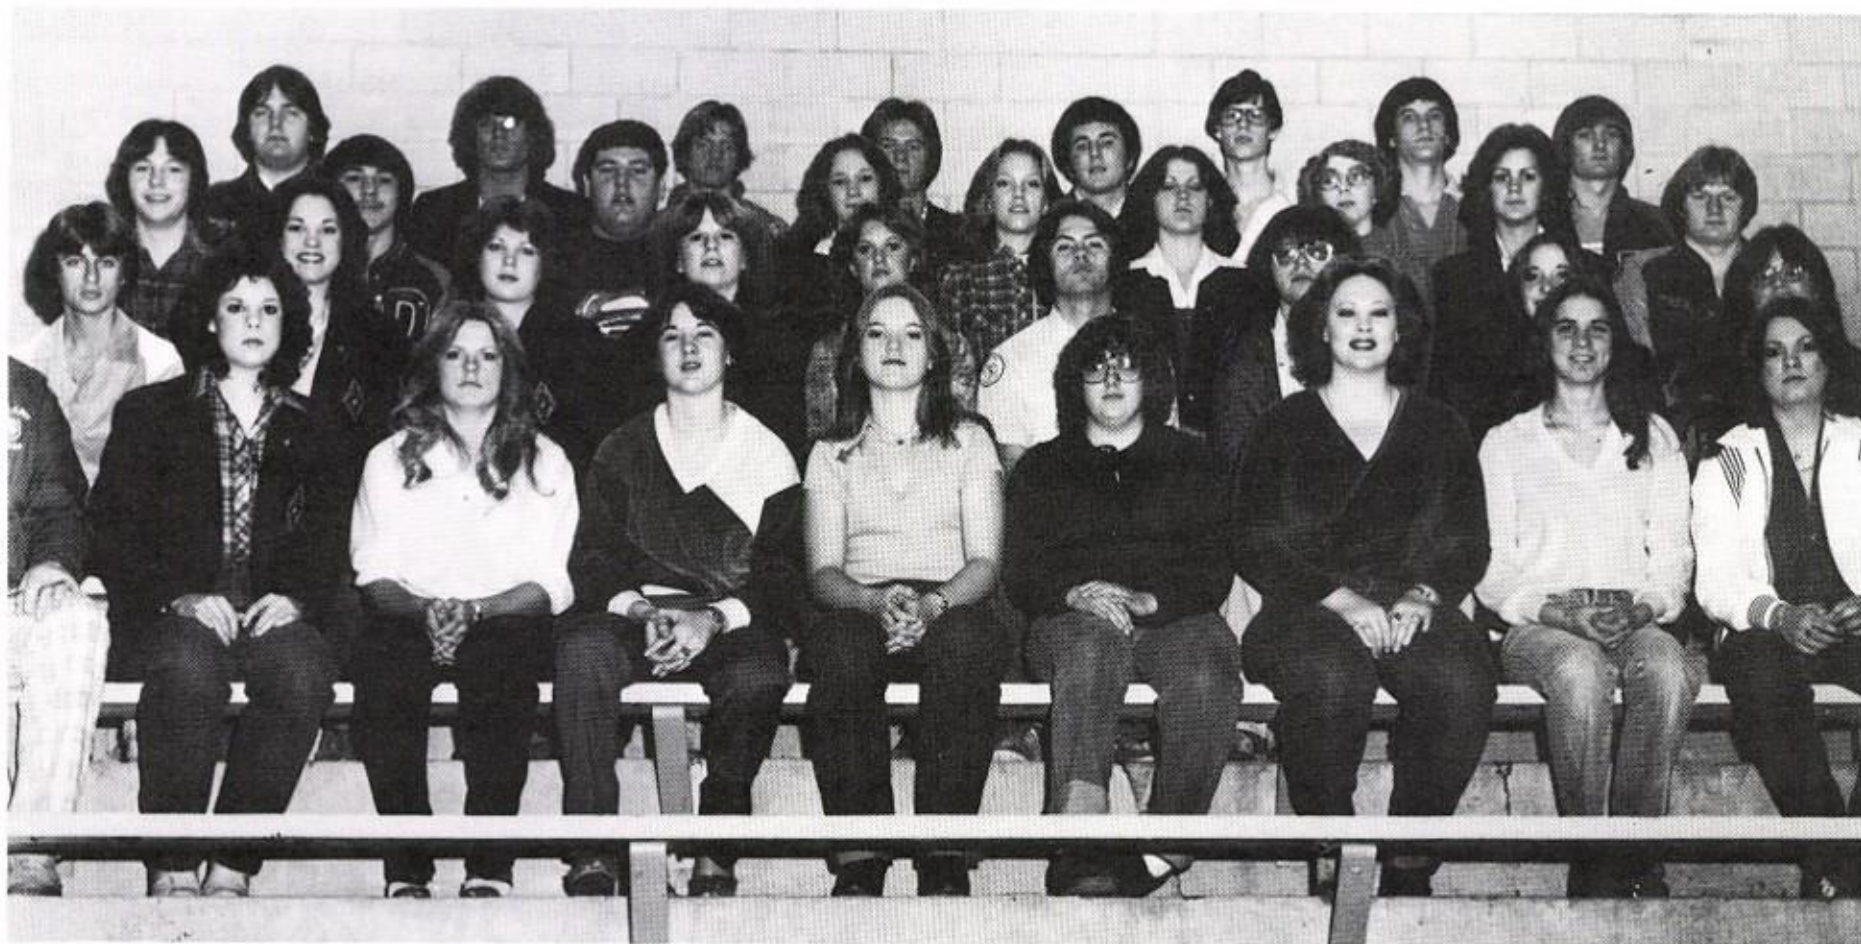

I believe in fulfilling the highest measure of service to my vocation, my fellow beings, my country and my God — that by so doing, I will be rewarded with personal satisfaction and material wealth.

I believe in the democratic philosophies of private enterprise and competition, and in the freedoms of this nation — that these philosophies allow for the fullest development of my individual abilities.

I believe that by doing my best to live according to these high principles, I will be of greater service both to myself and to mankind.

Graduation

A Happy Day for Many A Sad Day for All

The Spiral Staircase

We have climbed the spiral staircase
To this, our finest hour.
We have put away our toys and games
For knowledge to devour.

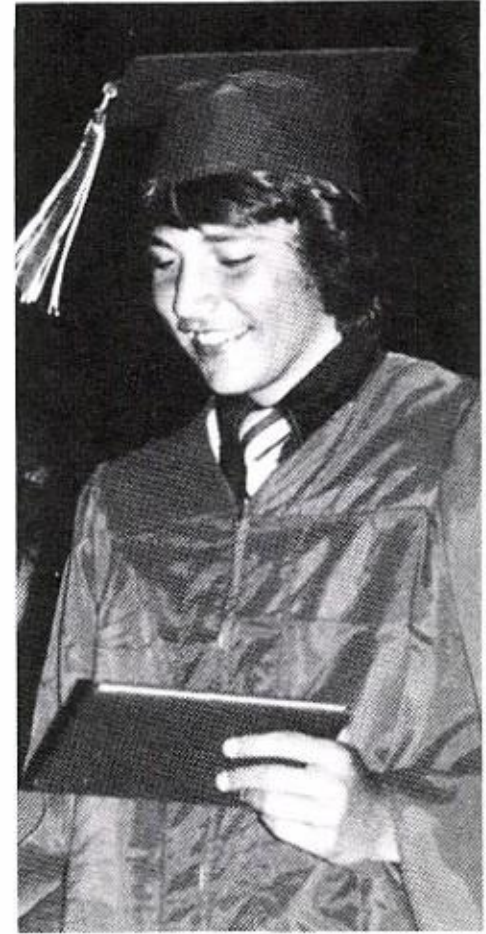

For twelve long years we've filled our heads
With things we need to know,
To face the enormous world outside
When we are on our own.

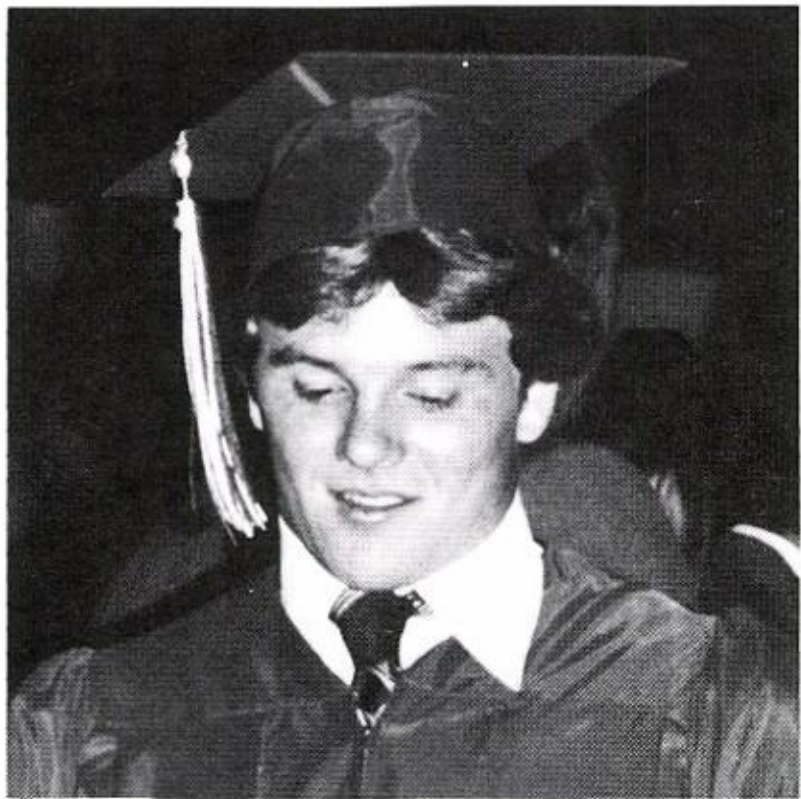

Graduation is but one step
In our place in life.
We will strive to do our very best,
And hold our heads up high.

We will reminisce in years to come,
The football team that brought us fame,
These hallowed halls,
And the friends we've made.

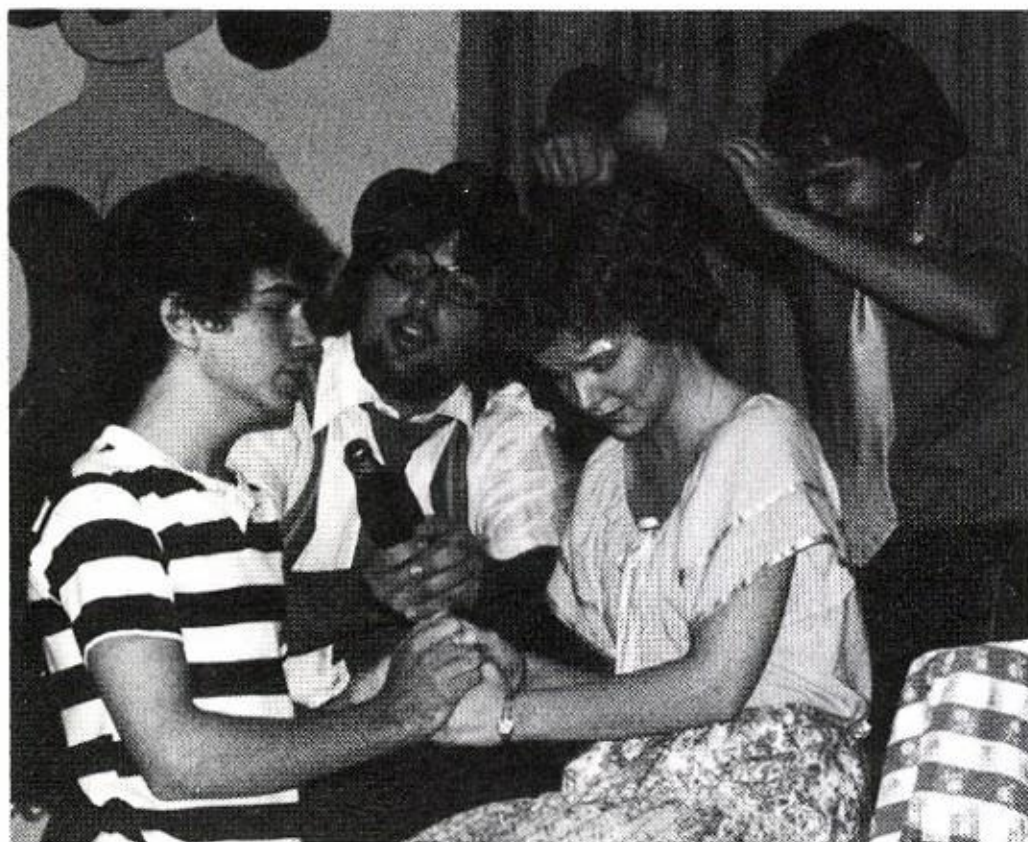

But now it's time to say farewell
To these familiar things,
For we are the leaders of tomorrow,
And we must hold the reins.

Written by Elizabeth Davis
